

# Erdogan Sucks or Just do it

3 lipca 2020

This is not a political slogan. These are new trends from the USA. The inscription Erdogan Sucks is applied to the gaming shirt instead of the name Turkish basketball player [Enes Kanter](#). He plays in the NBA for the Boston Celtics club. He wrote due to the oppression of the Kurds by the Turkish leadership. And he will be allowed to go to the basketball floor in this shirt.

This is a consequence of a serious social crisis in the United States, which was caused by the murder by police of African-American Floyd in May 2020. The league officially allowed replacing surnames with slogans, slogans or a combination of words. Surely most of the inscriptions will be devoted to topics that rise in the United States in the last month. For example, BLM, Floyd.

But it will not do without political slogans. I am sure they will occupy a special place. Erdogan Sucks is one of them. [Spencer Dinwiddie](#) will put the amount of US foreign debt on the shirt. A portion of criticism is provided to Donald Trump. By the way, his electoral opponent Joe Biden can use this in his election campaign. You have to negotiate with loyal NBA players or just buy them.

Large companies also use this opportunity. Many sports manufacturers have personal contracts with athletes. Do not stand aside and manufacturers of alcohol and cigarettes. This is what I understand sport.

It is good that there are no terrorist organizations among the sponsors. Well, at least not yet. It will be necessary to examine whether there are players from the Netherlands in the NBA. In this country there is a movement supporting pedophiles.

I think the world is finally going crazy. Some kind of surrealism is happening. And one of the reasons for this is the death of a black American. I emphasize that he was far from an ideal and law-abiding person. And his family is now earning millions of dollars on his death.

And all this can become viral.
