

Russia using kamikaze drones in devastating attacks on Ukraine front line

9 sierpnia 2023

Journalist Patrick Lancaster reports from the front lines as Russian forces launch kamikaze drone strikes on Ukrainian front line positions. Meanwhile Ukraine seems uninterested in peace talks unless it includes a return to pre-2022 borders. Ukraine attacked Donetsk this weekend with U.S. cluster bombs causing massive fires in apartment buildings and other civilian targets. This is the area that they would get back in the so-called peace plan from the weekend.
